Product Design

"Creating is the essence of life."

Julius Caesar

Course content

GCSE Product Design enables pupils to design and make products with creativity and originality using a range of materials and techniques.

Packaging, labelling, and instructions are encouraged as part of the complete design proposal, and advertising and points of sale can be used to supplement the making experience to help create products which can be evaluated for their commercial viability.

Skills developed

- Researching

- Designing

- Making

- Evaluating

Topics covered

- Human and environmental factors

- Consumer issues and product analysis

- Product evolution

- Packaging and labelling

- Design methodology

- Materials and components
