

Science

“Scientists have become the bearers of the torch of discovery in our quest for knowledge.”

Stephen Hawking

Course content

Year 7 Science gives you an introduction to science which includes Biology, Chemistry and Physics. You will have the opportunity in Year 7 to explore and learn about different topics and develop practical skills in the subject.

Skills developed

- Laboratory safety
- Manipulation of scientific equipment
- Enquiry-based skills
- Investigations, recording, analysing and evaluating data
- Literacy and numeracy will also be developed

Topics covered

- Cells
- Reproduction
- Ecology
- Particles
- Acids and Alkalis
- Reactions
- Energy
- Forces
- Space
