

Maths and English Challenges 23.11.18

Please complete these in your Further Learning book and hand it back into your class teacher by Wednesday.

English Challenge

In English this week we have looked at super sentences that contain semi-colons and dashes. Can you teach someone at home how to write some other sentences and 3 adjectives—question sentences? Have a look at the picture on the back of this sheet. Can you write a passage full of suspense to scare Miss Moores' socks off?

In our spelling, we have continuing learning to spell words with the -ible or -able ending and the following words from the Year 5 and 6 spelling list: language, leisure, interrupt, lightning.

Big Learning Question

Our Big Learning Question this half term is 'Why is Greece in the news again?'

Maths Challenge

This week in Maths we have looked at calculations including multiplication and division. We have moved on to using short multiplication methods and short division too. How quickly can you complete the calculations on the back of this sheet?

Can you complete each one in under a minute?

We have also practised facts from the 7 times table and related facts such as $7 \times 30 = 210$.
