

Further Learning is a key part of your child's development and strengthens the links between home and school. Please encourage your child to be an independent learner with their Further Learning.

English Challenge

This week in English, we have adapted our Talk For Writing story. We also continued looking at conjunctions to make our story longer. Why don't you share the story with your grown-up using some of the conjunctions you have been using in class?

Our reading challenge starts on Monday! Please bring evidence (a signed planner) each day to receive a token in the raffle draw! Evidence of reading comprehension gets you an extra ticket!

Maths Challenge

This week we have been learning about addition. What are the symbols $+$ and $=$? What are the key words to describe the symbols?

We have been looking at the different ways to represent number sentences. We have used the number line, tens frame, part-whole model and Numicon. Use a spider diagram to answer these number sentences using the resources above.

were our

What was in my grandparents' toy box?

How you choose to present your home learning project is up to you! You could present it on a computer program, as a model, as a piece of writing or artwork! Be creative and have fun! But most importantly show good character for learning and independence!

Please bring in W/C: 11.02.2019
