## What is Further Learning?

Further Learning is a key part of your child's development and strengthens the links between home and school. Please encourage your child to be an independent learner with their Further Learning. You can support your child by encouraging them to be a growing brain and try their best!

Each week we will be sending a maths and English challenge for your child to complete. These are the non negotiables within your child's year group which are considered the core objectives a child needs to achieve in order to make good progress in learning the following year. When children hand in the home learning books each week, we will celebrate all the learning and practice children have done as a class.

As well as weekly English and Maths challenges, we will also be sending a half termly home learning project which links to the learning project we are covering at school. This is to be handed in during the last week of each half term.

**This half term we are trying to answer the big question:**

**What were cops and robbers like a long time ago?**

Your challenge is to build a model of an old prison - it could be from any time period: Victorian, Edwardian, Roman or other. We are going to turn our classroom into a museum of crime and punishment in the last week of term.

## Maths and English Challenges

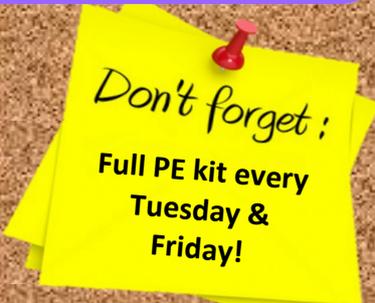

Please complete these in your Further Learning book and hand it back into your class teacher by Wednesday.

### English Challenge

This half term have been learning about 'narrative verse'

Can you illustrate the story you wrote in class to make your very own narrative story book?

*Don't forget!*

Full PE kit every  
Tuesday &  
Friday!

### Spellings

famous

### Numeracy Challenge

This week we have been looking at long multiplication and division

Can you teach an adult how to use the bus stop method for division? And how to multiply a 3 digit number?
