

## Maths and English Challenges 18.01.19

Please complete these in your Further Learning book and hand it back into your class teacher by Wednesday.

### English Challenge

In our reading this week we have learned the poem 'Silver' by Walter De La Mare. Can you learn this poem off by heart to recite? How will you present it to your class mates? How can you use the punctuation in your reading and how can you help use your tone of voice to deliver the mood of the poem intended by the author? Can you find any other poems by Walter De La Mare? What do they have in common with the one we have studied in class?

Next week's spellings will be temperature, twelfth, vegetable, vehicle and yacht. We will also be learning about the spelling rule for using apostrophes for contractions in words like didn't, shouldn't and it's as well as apostrophes for possession.

### Big Learning Question

Just for this last week is, Who was Guru Gobind Singh?

### Maths Challenge

This week in Maths we have developed our multiplication and division skills. When it comes to arithmetic, we are aiming for 100% accuracy! We have looked for tricks when it comes to solving multiplication and division calculations that can help us solve them quickly and confidently. There are some examples on the back of this sheet. Have a go at the calculations over the page.

We have also practised our division facts for KIRFs this week. For example  $56 \div 7 = 8$ . Do you know all of these by heart?
