

Sociology

“The function of sociology, as of every science, is to reveal that which is hidden.”

Pierre Bourdieu

Course content

Sociology studies how society works and it will help you to understand how individuals fit into a wider social network and encourage you to question beliefs about society which you may have previously taken for granted. Sociology is also about your life and the world around you. It is a subject that you will have experience of and one that will help you understand many aspects of your future.
